Partners in Action

TPD Deputies responded to a report of an unwanted subject camping inside a TriMet stop near Providence Hospital. Upon contacting this individual, it was readily apparent that they were in a great deal of pain and had no plans to use TriMet services or leave the area. Demonstrating compassion and patience, TPD members listened to the needs of this individual and offered a variety of solutions geared towards improving the livability of their situation.

Using input from this community member, TPD personnel assisted in cleaning up the bus shelter, aiding the subject into their mobility device and placing them in the best position possible for being transported by a friend. In doing so, TPD members accomplished their goal of keeping the TriMet system safe, clean and free of service interruptions; all while helping to steer non-destination users towards the proper resources they need most.
